

Use the
Right Drug
for the
Right Bug

Name: _____

Age: _____

Address: _____

Phone #: _____

The Utah Alliance Working for Antibiotic Resistance (AWARE) reminds you that antibiotics only help bacterial infections and don't work against viral infections like the cold. The best way to stay healthy this cold and flu season is to drink plenty of water, wash your hands often and get plenty of rest. For more information and official rules, visit www.utahaware.com.

Children age 12 and under are eligible to participate. One entry per child. Completed coloring sheets are due January 29, 2006 and should be mailed to:
